

HEARING THE VOICE OF GOD

The first step to rebuilding and reconstructing your relationship with God is developing your ability to hear God. You were created to be tuned into the loving & reassuring voice of God. It is your birthright and it is supposed to be easy.

** Describe the type of frequency you've been tuned into that sounds like God but isn't?*

** Brainstorm some creative ways you can keep your attention & focus on God through worship?*

** Do you remember the 4 main ways God can speak to you? Write it down and identify which ways you hear best.*

** Describe two-way journaling in your own words.*

NEXT STEPS:

- Grab a dream journal and begin recording your dreams
