

FEELING SAFE ASKING GOD QUESTIONS

Many of us were taught that asking God questions was a sign of not having faith and trust in God. In this worksheet we will boldly approach the throne of God and ask questions with strong faith that God is the One INVITING you into deeper conversation and relationship.

** In order to feel safe asking God questions you must believe God loves you. Is there anything stopping you from believing God loves you, if so what are they?*

** What questions have you been wanting to ask God but have been afraid to ask God? Use your journal to write at least 3 questions you've been wanting to ask God.*

** Set aside some time for the next 3 days to ask God these questions. Set your timer for 20 minutes to sit and listen for the answer to these questions and write them down in your journal.*
